Fernald Environmental Management Project  
Attn: Mr. J. Phil Hamric  
P.O. Box 398705  
Cincinnati, Ohio 45239-8705

Dear Mr. Hamric:

According to Ohio EPA records, on July 25, 1995, the Director of Ohio EPA approved a closure plan submitted by U.S.D.O.E. - FEMP. The plan concerned the hazardous waste Detrex Still (HWMU #26) located at their facility. On September 25, 1995, U.S.D.O.E. - FEMP submitted to the Director certification documents stating that the hazardous waste detrex still had been closed according to the specifications in the approved closure plan. Ohio EPA District Office personnel completed a certification of closure inspection on June 21 and 22, 1995 and a review of documents pertaining to the hazardous waste detrex still on November 15, 1995.

Based on this inspection and review, the Ohio EPA has determined that the hazardous waste detrex still (HWMU #26) has been closed in accordance with the approved closure plan and Rules 3745-66-12 through 3745-66-15 of the Ohio Administrative Code (OAC). U.S.D.O.E. - FEMP will continue to operate as a treatment, storage, and disposal (TSD) facility and a large quantity generator (LQG) of hazardous waste.

Please contact the Ohio EPA, Southwest District Office, Attn: Chris Budich, 401 E. Fifth Street, Dayton, Ohio 45402-2911, tel: (513) 285-6357 if you have any questions concerning the closure process or the facility's status.

Sincerely yours,

Thomas E. Crepeau, Manager  
Data Management Section  
Division of Hazardous Waste Management
